

# SCAFFOLD SERVICES

Collectively we have proven industry experience . Initially established in 2003 our service is reputable, reliable and professional aligning with our core values of productivity, quality and safety ensuring our service and level of performance provided becomes a valued and integral part of our clients business.

We are equipped to service both minor and major projects including project works, shutdowns, residential, commercial, on and off shore, heavy industry, ports and mining. No job is too small or too big, our Project Management team can provide a service and estimate to suit your needs.

Our highly skilled workforce includes Scaffolders (Basic, Intermediate & Advanced), Supervisors and Riggers skilled in all levels of scaffold and access requirements.

We are a locally owned and operated company. Our core values **Productivity, Quality, Safely** allow us to meet all our clients needs and expectations, ensuring ongoing and continued success & improvement.
