

# Strategic Plan 2023 - 2024

## Vision

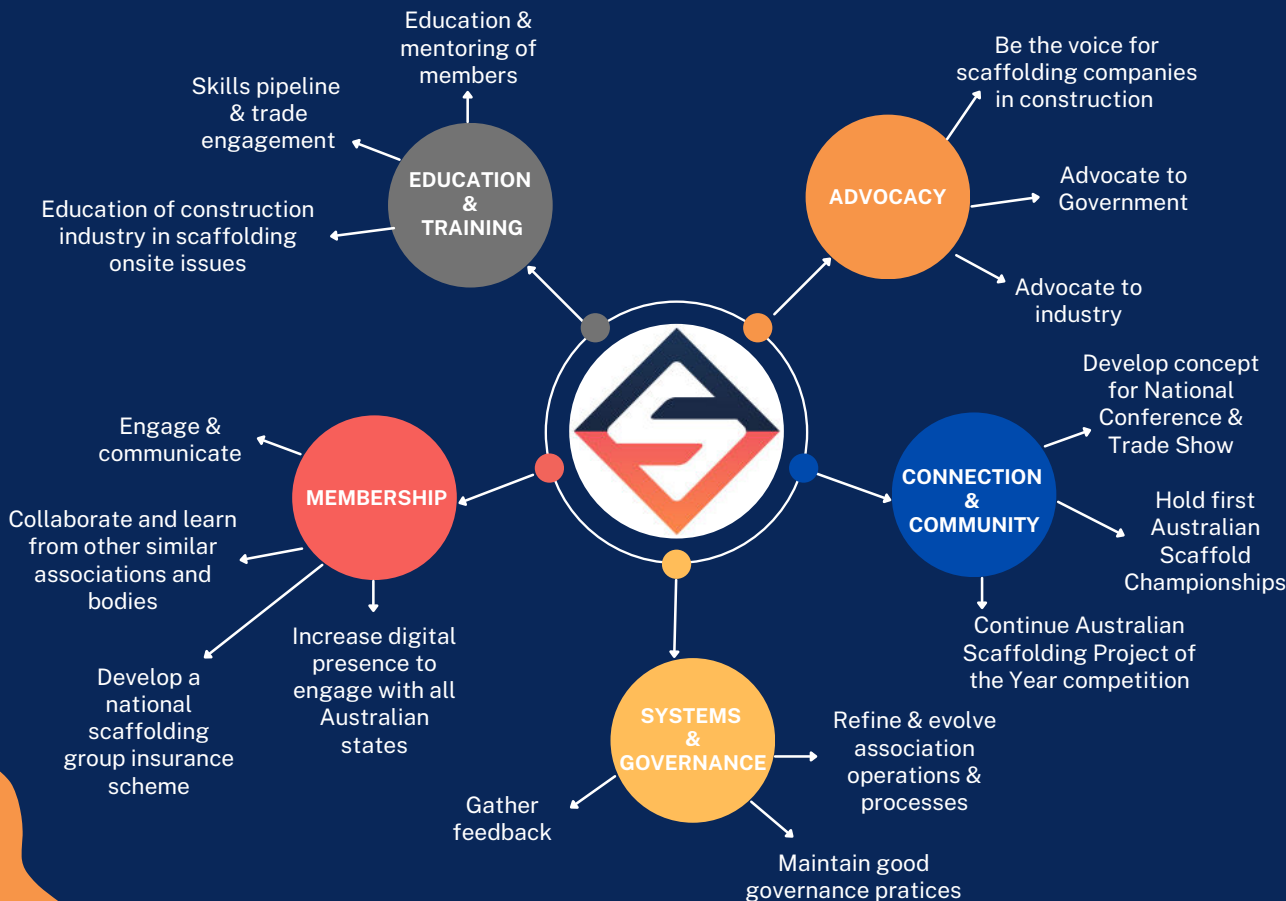

To represent our members and be their voice in the construction industry, guiding them in managing, operating and growing their scaffolding business.

## Mission

The mission of the Scaffolding Association Australia is to represent, enhance and promote the scaffold industry in Australia.

## Goals

- Promote and maintain a professional image of the scaffolding industry in Australia
- Raise the visibility and influence of the scaffolding industry in Australia
- Help develop and promote sensible and consistent legislation and Australian Standards and Codes for the scaffolding industry
- Help develop and promote sensible and consistent training and workplace education of scaffolding workers in Australia
- Increase awareness amongst SAA members of technological advances in the scaffolding industry with regard to its products, services and practices
- Assist SAA members in becoming more efficient and successful in their business practice
- Provide a forum for members to expand their professional knowledge and capabilities

# Strategic Plan 2023 - 2024
