

**Missing Guardrails**

**Missing Plank**

**HANDS OFF!**  
**STOP SCAFFOLD TAMPERING**

**Scaffolding  
Association  
Australia®**

**Tampering  
with scaffold  
components  
can cause  
fatal falls  
and dangerous  
dropped objects!**

Scaffolding  
Association  
Australia®

## The Solution

Only suitably licensed scaffolders from the company that built the scaffold should modify scaffolding.

---

Never remove guardrails, toe boards, or netting.

---

Secure tools and materials when working at height.

---

Inspect all fall protection and overhead safety components regularly.

**Falls and falling  
objects are preventable  
MAKE SAFETY  
YOUR PRIORITY!**

**Hands off!  
Stop Scaffold tampering!**
